

An eight-inch whistler "fire-cracker" free with all purchases at candy or soda fountain

Such a fire cracker will delight the children. It is almost like a real one—though the size tells it is not. Covered with red paper and a whistle is adjusted inside the cracker so that by blowing it a noise results. The clearest novelty Washington children ever saw. And every child can have one—by buying some candy or something nice to drink at the fountain Monday. The supply is limited—but all who come Monday are assured one. This firecracker will amuse the children as much as a real one, and no danger to themselves or others will result. 1st floor—S. Kann, Sons & Co.

The greatest news that's ever been printed of Val. lace edges and insertions Kinds worth 65c to \$1.50 a dozen yds. 49c a dozen yards

THE LOT includes both finest German vals. and French vals. The widths range from 1 inch wide to 2 inches. There are just exactly 2,470 pieces of a dozen yards each. A good share of these laces are in matched sets. You can get either the regular or round mesh kinds. If you want fine laces at a fraction of their worth this is the biggest and best chance you've had. We cannot too strongly urge early selection. It is almost needless to advertise such laces as these. If they were put out on the bargain tables without comment they'd sell out in a few days. With this notice, we doubt very much whether we shall have a single yard left for Tuesday. 1st floor bargain tables. LOOK FOR THE VAL. LACE CROWD.
